Who We Are

We are a family owned, industry-leading company, offering complete metal fabrication, finishing services and products. Premier Companies has its own product line that supplies the car wash, and many other industries with Dryers, Vacuums, Signage, LED Lighting and Canopy Stations. All of our products are proudly designed and manufactured in Central Wisconsin.

What We Do

The selection of products manufactured by Premier Companies are not only of the highest quality, but are also available in a variety of options to ensure you find exactly what you're looking for. With top-of-the-line materials, cutting-edge production technologies and a highly qualified team, we guarantee complete satisfaction.

SAVE ENERGY
AND MONEY
WITH OUR
VFD PANELS!

UL LISTED VFD and Starter Panels

Features and Benefits

- Yaskawa VFDs (world leading VFD manufacturer)
- Arrives pre-programmed to your specific needs
- User-friendly with 24/7 technical support
- Energy rebates may be available in your area
- Energy savings from avoiding start up current
- Eco friendly
- No mechanical moving parts
- Unlimited performance options
- Extends parts and motor life
- Replaces existing starter panel
- Reduces noise levels
- Great return on investment
- Saves you money

Save Energy and Money

- At **58 hz**, owner saves **19%** on energy cost.*
- At **57 hz**, owner saves **24%** on energy cost.*
- At **55 hz**, owner saves **32%** on energy cost.*

* Data collected from 10 HP 208 volt during 60 second dryer time.

Introducing the New Evolution Series

Oscillating Nozzle | Flip Nozzle

Oscillating Nozzle

- HDPE producer housing colors available:

Blue Black Granite Gray Red Green Yellow
- Fiberglass cover with custom graphics available
- LED backlit cover with custom graphics available
- UL Listed VFD and standard starter panels available
- LED lighting available
- Custom applications available
- 5 HP available upon request

Oscillating Nozzle

- Swings left and right approximately 30 degrees
- Pneumatic or electric actuation
- Available in single or dual configurations

Flip Nozzle

Flip Nozzle

- Swings approximately 15 degrees in both forward and backward directions
- Pneumatic actuation
- Activated by photo or sonar detection
- Available in left, right, or dual configurations
- Great addition for drying the rear of vehicles

Fixed Nozzle Adapter

- May be used as a standalone nozzle, or as an adapter for air knives and e-trunks
- Allows an e-trunk or air knife to be adjusted 360 degrees

Evolution Producer Specifications

Custom Large Vehicle Dryers

DESIGNED
AND BUILT TO
SUIT YOUR
CUSTOMER'S
NEEDS

PROVIDES
A NARROW,
HIGH-VELOCITY
BLADE OF AIR!

Evolution Series Air Blanket For Large Vehicles

The Air Blanket attachment for Evolution Series provides a narrow, high-velocity blade of air up to 8+ feet wide. This narrow air path is angled, to better push water off larger vehicles, such as buses and delivery trucks.

Common Large Vehicle Dryer Configurations

Additional custom configurations are available. Please contact us.

Introducing the New Premier Air Gate

- Reduces ramp-up time between vehicles
- Lowers electrical usage
- Reduces wear on blower motor
- Ask about retro-fitting to existing Premier dryer systems
- HDPE producer housing colors available:

Arches and Overheads

These days, a car wash is about more than just a clean car. It's about providing your customers with a unique experience that makes a big impact. Our line of LED arches and overheads are sure to do just that. All of our signs are 120 volt, and are fully customizable with pucks, dots or spinners.

Our team of graphic designers are ready to create a standout arch that elevates our customer's brand. Creative designs and fast turnaround times, paired with the quality you've come to expect from Premier, turns a cruise through a wash into an illuminated adventure all can enjoy. Choose from our lineup of standard arches, or contact us for a one-of-a-kind custom design.
